

## ASSEMBLY INSTRUCTIONS

The row of A, B, and C pieces (along with the mirrored copies of B and C) must be assembled first.

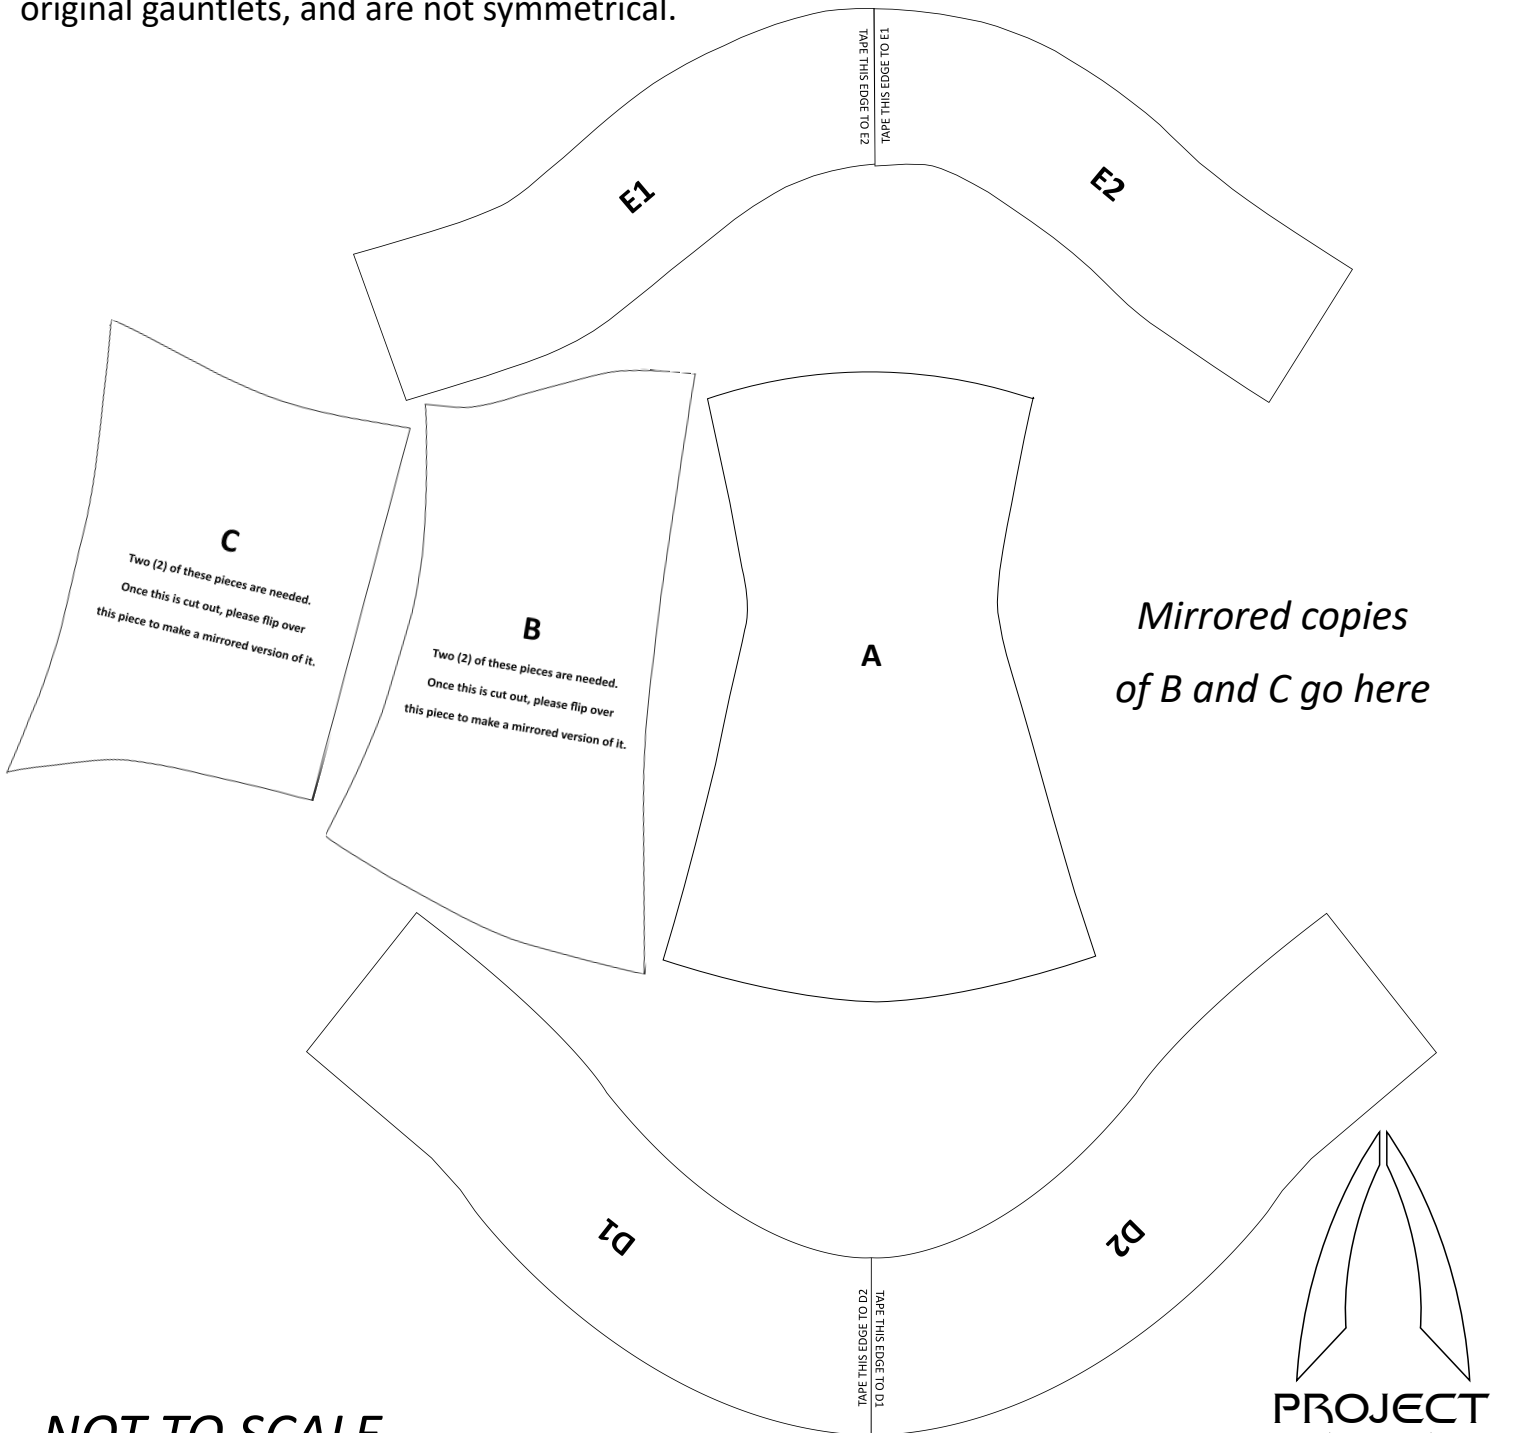

The D and E trim pieces should be attached once A, B, C and the mirrored pieces are assembled.

The trim pieces must then be folded over and sewn down to create a hemmed edge. Sew

along the attachment point to the A, B, and C pieces.

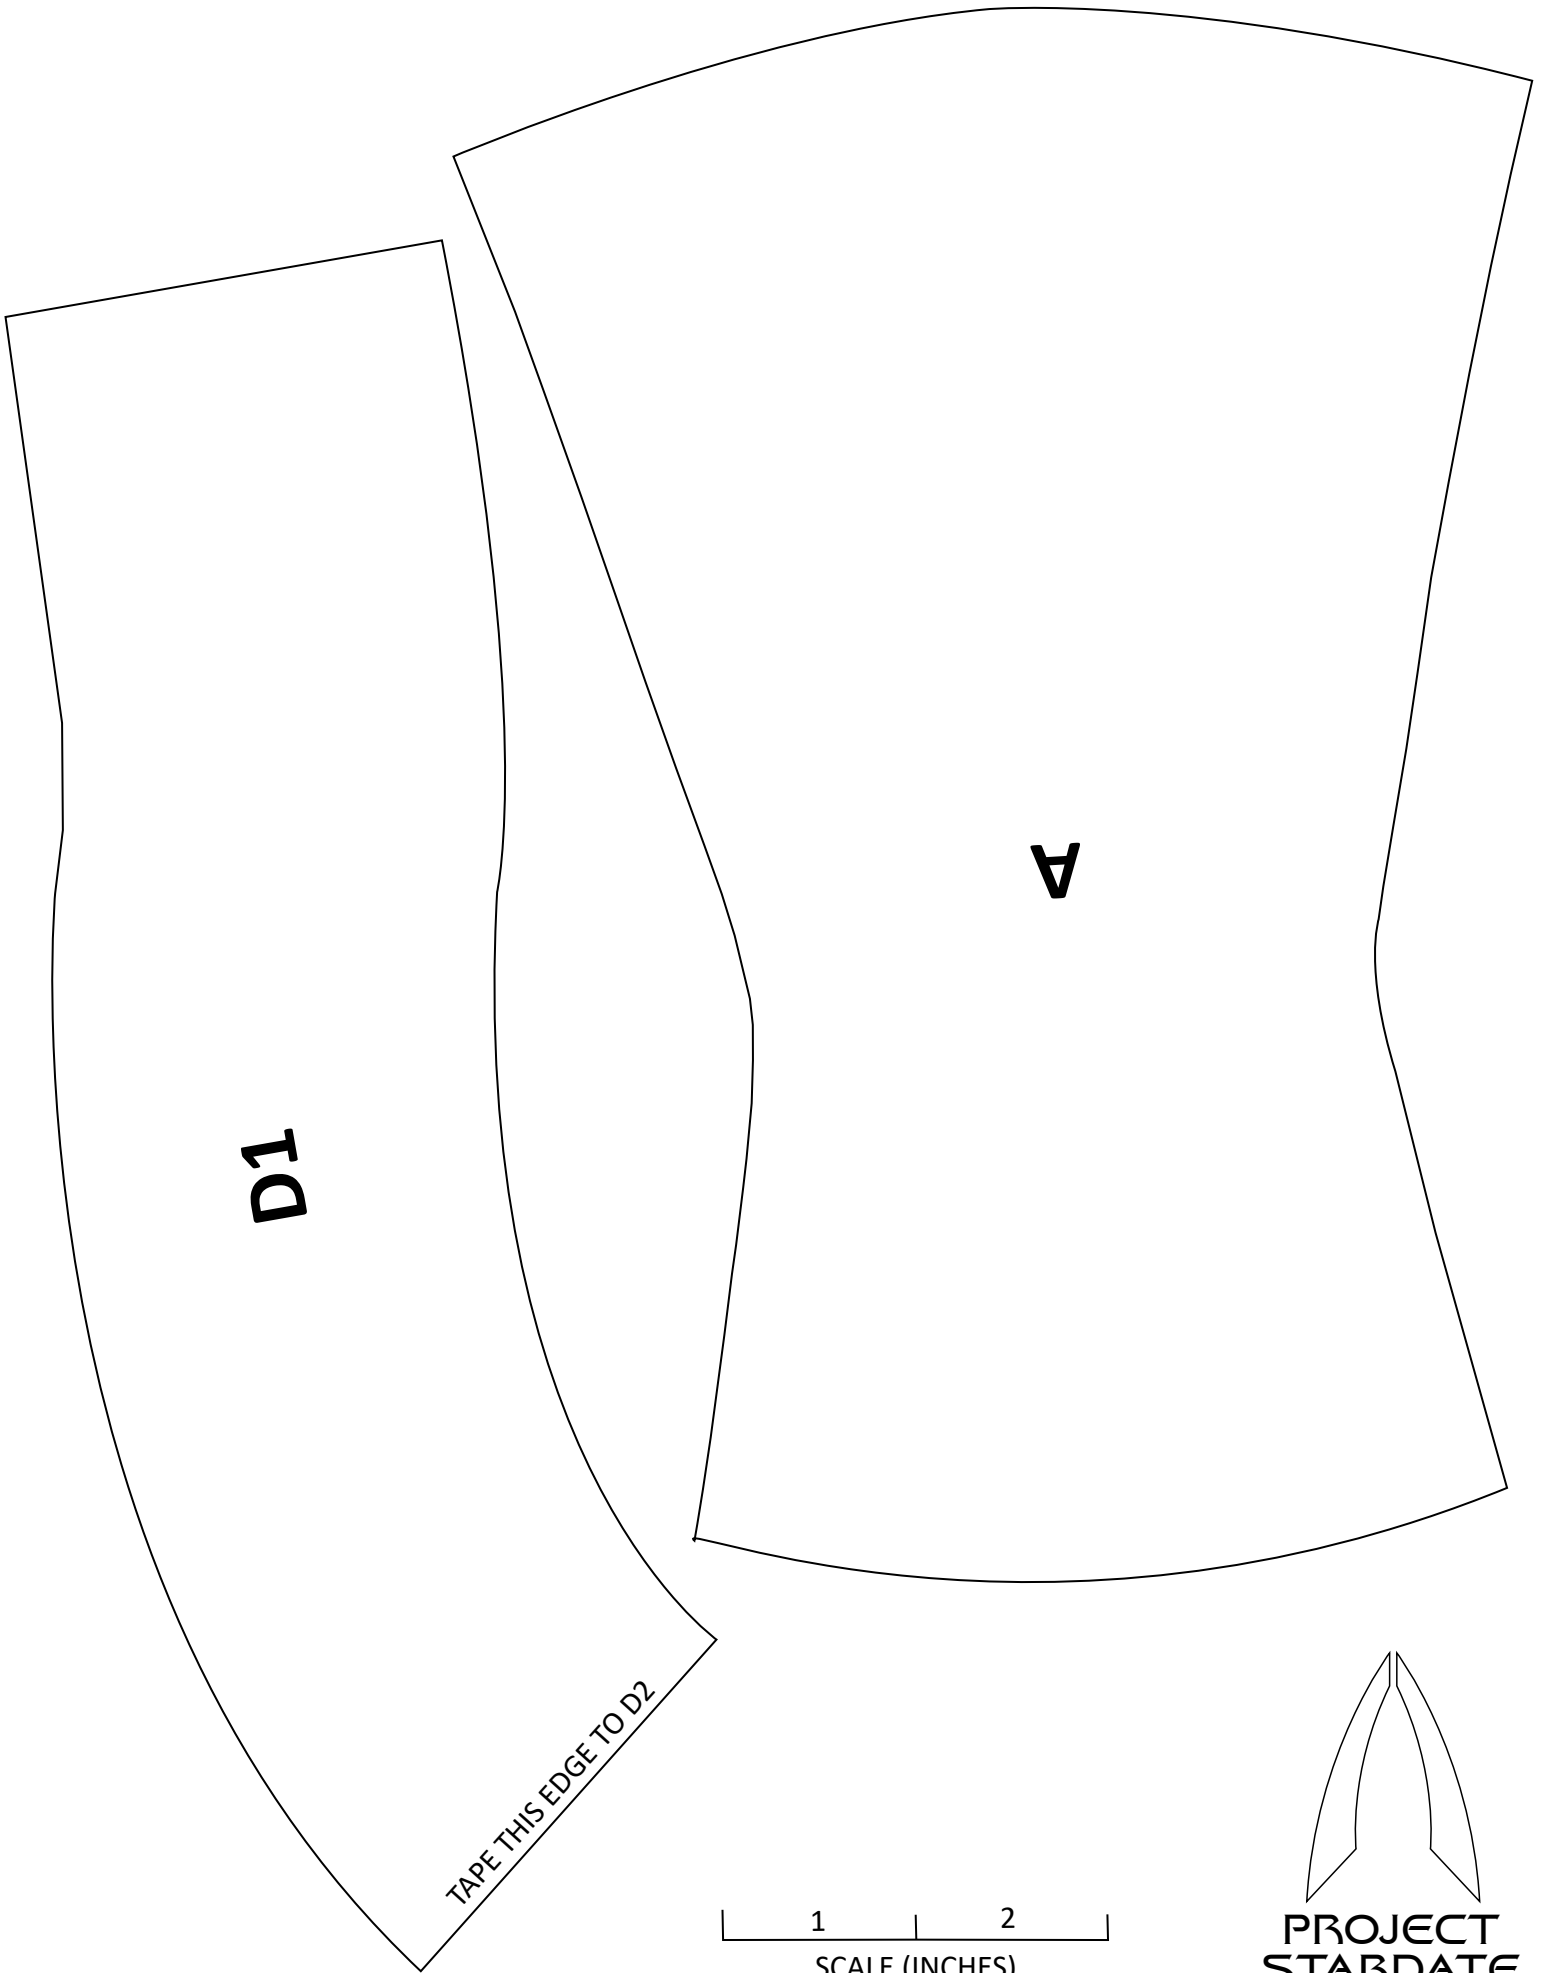

Finally, turn gauntlet inside-out to sew the outer edges of both C pieces to create finished gauntlet.

**NOTE: All pieces must overlap by a half inch.** Also, the D and E pieces are copied off of screen-used original gauntlets, and are not symmetrical.
